CAMPBELL'S HALL

TO HAVE PERMANENT
THEATRE LICENSE

Arrangements are now being completed for a fully modernization of Campbell's Hall, which will be made strictly up-to-date to meet all government regulations. New modern, standard motion picture equipment will be installed. The latest in sound proof wall coverings will be used. And new Theatre seats will be installed. A new hard wood dance floor will be laid and, when completed, this hall will be open for Dances, Lodges and other meetings.

IN MEMORIAM

ULRICH—In loving memory of Florence Ulrich, who passed away September 21st, 1937. "We miss her and mourn her in silence unseen. And live in the memories, Of joys that have been."—Lovingly remembered by the family.

CARD OF THANKS

I wish to thank my friends for their many kindnesses, the expressions of sympathy and the floral tributes, received during the illness and death of my beloved wife.
 U. G. Anderson.

L. A. STARCK (LICENSED)

REAL ESTATE
AGENT
CARMANGAY, ALBERTA

In this issue, the management of Campbell's Hall are announcing extensive alterations to the premises. No effort will be spared in making this thoroughly modern and up to date motion picture theatre and dance hall, and the management is to be commended for their enterprise.

"Ports of Call"—Change of Time

The popular radio program "Ports of Call", sponsored by the Alberta Wheat Pool, will be presented from 8 to 8:30 each Sunday evening commencing September 25th.

Be sure and note change of time, Stations CFAC, Calgary, and CICA, Edmonton.

CHAMPION, ALBERTA

Sir Edward Beatty Becomes Freeman of Cranbrook

When Sir Edward Beatty, G.B.E., K.C., J.D., chairman and president of the Canadian Pacific Railway, attended Cranbrook's Pioneer Reunion, Friday, September 9, he received the freedom of the city and heard himself extolled as an outstanding Canadian and head of the company which 40 years ago forced the Crow's Nest Pass link

of its great railway system into the rich Kootenay country. Sir Edward is seen receiving a silver tray commemorating the occasion, from Mayor T. M. Roberts. On Sir Edward's left is Judge G. H. Thompson who swore him in as a freeman of the bustling East Kootenay city. Ross H. McMaster, of Montreal, director of the Canadian Pacific Railway, is at the extreme left of the picture. This, the third ceremony of its kind in which Sir Edward has participated, Saint John and Vancouver having previously conferred the freedom of their cities, was a joint tribute to Sir Edward and to the pioneers of the road, many of whom were present to see the brilliant ceremony and to hear their own work done four decades ago praised.

LOCALS

Mr. H. E. Smith was a Calgary visitor this week.

Mrs. C. McLean was a Nobleford visitor over the week end.

Harold Stephenson of Vulean was a visitor in town on Friday.

U. S. Alexander has been appointed secretary-treasurer of the Village of Champion.

Mr. and Mrs. H. C. Jopling and family have moved into the Woodhull house.

Bert Gill, who left recently for Vancouver, returned to town Monday.

Mrs. D. Watkins and Mrs. M. G. Clever were week end visitors in Lethbridge.

Mr. and Mrs. J. D. Henderson were Lethbridge visitors on Tuesday.

C. Rhodes is acting secretary of the Champion Consolidated Schools.

The Ladies Aid will meet on Thursday afternoon, Sept. 29th, at the home of Mrs. Fred Watts.

Visiting from New Westminster, B. C. Miss Henderson, is the guest of her sister, Mrs. W. McEae.

Mrs. L. Price was guest of honor at a party on Saturday, when several ladies called to help celebrate her birthday.

Robert Gardner left for Edmonton where he has secured a position on the government staff.

Mr. and Mrs. G. Orr motored to Barnwell Friday returning with Miss Edna Orr, who spent the week end at her home here.

Mr. and Mrs. A. D. Diemert have moved in from the farm and are occupying the house recently vacated by H. C. Jopling.

Lee Siler is a patient in the Carmangay hospital, having undergone an operation for appendicitis on Monday.

Mr. M. P. Diemert of Vancouver arrived here last Saturday to look after his farm interests here.

A number of baseball fans from here attended the games in Lethbridge Sunday, between Picture Butte and Lethbridge.

LOCALS

In compliment to Miss Henderson, who is visiting here, Mrs. E. Lauff was a tea hostess on Tuesday.

Mr. and Mrs. Ted. Davis of Lomond were week end guests at the home of Mr. and Mrs. Harry E. Smith.

Mr. and Mrs. O. Summers and family have been confined to their beds for the past week, suffering from a severe attack of stomach influenza.

Harvest Thanksgiving Service will be held by Canon Winter in the basement of the Community Hall at 3 p. m., Sunday, 25th September.

Miss Marjorie McCullough and Miss Katherine Gottenberg will leave for Edmonton next week, where they will resume their studies at the University of Alberta.

Mrs. Hazel Ballen, and son, of Calgary, who has been visiting at the home of her parents, Mr. and Mrs. W. J. Porter, left Sunday for Vancouver where she will spend the winter.

Members of the Champion O. E. S. motored to Lethbridge on Monday evening, where they were the guests Laurel Chappet at their regular meeting. A very enjoyable evening was spent.

Visiting in the district over the Labor Day weekend, Mr. and Mrs. H. Grunowalt and daughter, and Mrs. A. Cowell, of Lethbridge, were guests at the home of Mr. and Mrs. D. Watkins.

Mrs. C. Williamson was a dinner hostess on Monday evening, when her guests included Mr. and Mrs. James Davey of Carmangay, Mr. and Mrs. Jack Davey of Vancouver and Geo. Davey of Champion.

The equipment has arrived for the new Beauty Parlor being opened by Miss Betty Mulligan, and will be installed just as soon as the decorating of the premises is completed.

A large crowd attended the dance in the Community hall on Friday evening. The dancing season has opened with a good start and the committee in charge are making every effort to secure several leading orchestras for the coming months.

LOCALS

Mrs. M. L. Todd, who was a contestant last year in the Alburton Contest, has entered this year's contest and would appreciate the support of all Alburton patrons.

Next week September 28 the D. and D. Circuit Shows will present for your approval, one of the most Sparkling Entertainments of the times, "My Man Godfrey" with William Powell and Carole Lombard.

The junior basketball teams of the school, made up from grades 7, 8 & 9, went to Vulean for a friendly game last Friday evening. The local girls won their game 8-6, but the boys lost out 5-2. The Vulean teams are coming down Friday for a return game.

Election of officers for the Students' Union of the High School was held this week, the following being elected: President, Jim Brown; Vice President, Joyce Christensen; Secretary, Almour Marshall; Treasurer, Maxine Ditto.

CAMPBELL'S

Mr. and Mrs. W. E. Watkins spent the week end at Carbon, where they visited at the homes of their daughters, Mrs. MacGibbon and Mrs. Ramsay. Mrs. Ramsay is moving to Craigsmyle shortly, where Mr. Ramsay has been appointed municipal secretary.

Of interest to all radio listeners will be the appearance over Alberta Stations of the well known radio artist, "Smilin' Ed. McConnell".

"Smilin' Ed" is famous to the South, and Albertans also are bound to fall victims to his hearty and cheery personality and the magic of his voice, which have made his "Hymn-time" programme an outstanding feature of their. In sheer contrast to the "pop" programme so much in vogue, "Smilin' Ed" starts the day serenely with fifteen minutes of hymns and homely philosophy.

The Millers of Robin Hood Flour are sponsoring this programme through the winter months, each Monday, Wednesday and Friday morning over stations CFAC Calgary 8:30 a.m. and CJOE Lethbridge 8:45 a.m.

SERVING A GREAT FIELD

From United Grain Growers' terminal at Port Arthur to that at Vancouver is over 1,800 miles. It is over a thousand miles in a straight line from the most easterly of the Company's elevators to the most westerly one. Its most southerly elevator is 500 miles further south than its most northerly elevator. It is a vast area which is served by this farmers' company. Because of the great area served, it has resources, equipment, organization and information enabling it to give every possible protection to the interests of its farmer customers.

Organized by farmers, owned by farmers, controlled by farmers, this Company's essential purpose is now, as it has always been, to be of service to farmers. The experience of farmers throughout the vast area served proves that this purpose has been carried out throughout the Company's history of more than thirty years.

Vigilance Means Safety

With the shooting season for birds now in full swing and the time for hunting of big game to follow a little later, it is an appropriate time to remind all who handle rifles, shot guns and revolvers that sudden tragedy lurks close by for some victims of carelessness.

Now is the time to remember that all too frequently it is the "unloaded gun" that unwittingly snuffs out a life or is responsible for irreparable injury to a child, a relative or a companion, and that he who is careless with firearms may cause death or injury to himself without a moment's warning.

How It May Happen

There are those who go out blithely for a day of enjoyment in the crisp autumn air and who will return to their homes full of grief and remorse over some accident for which a moment's thoughtlessness was responsible and the memory of which will never be entirely obliterated.

There is the sportsman of excitable temperament who is too keen to get in his shot and will not wait before pressing the trigger until he is quite sure of the nature of the object at which he points his weapon. He sees something more and that is sufficient. He raises his gun to his shoulder and lets fly in the general direction of the movement. His quarry may be a bird, it may be a dog or a cow or it may slip "certainly" for a child or a hunting friend.

Then there are those hunters who will surround a comparatively small elough laden with ducks and who pull the trigger hastily in their anxiety to get a bird without making sure that their companions are not in line to receive all or a portion of the discharged pellets. Such accidents are too common around sloughs skirted with bush which may render visibility imperfect.

There are also those who, despite the cautions frequently uttered by the versed versed in rules of hunting, will carry their loaded guns at a dangerous angle, risking the lives of their companions; those who will drag guns through fences without regard to the direction of the muzzle and the risk of snagging the trigger; those who will place loaded guns in the house inviting death for some innocent child or curious adult and those who, despite the law to the contrary, will persist in firing guns from a moving automobile, wagon or buggy.

All of these and others who violate the huntsman's common rules of safety are a constant menace during the hunting season. None of them can be charged with murder, yet the result of their actions may be the same as those of the man who sets out to kill deliberately his kind, but they cannot be excused because lack of ordinary precautions were not taken or because the commonsense rules of safety were not observed.

Rules Of Safety

"Safe carrying of guns must become a definite habit," recently said C. K. Howard, manager of the Fish and Game Department of the Canadian National Railways, in an interview outlining a few suggestions, the rigid observance of which would constitute an insurance policy against regrettable accidents.

"The golden rule is that the muzzle of a carried gun must never sweep the horizon," he continued. "If an accident happens take place it should send the shot into the ground before the feet of the person carrying the gun, or into the air. The muzzle of a gun should never be allowed to point toward the person carrying it nor toward any other person."

"Guns being taken into boats or vehicles, or over fences and other obstructions, should precede the person carrying them. Cartridges should be removed on entering camp or a house. Loaded guns should never be aimed at anything unless the person intends to pull the trigger. No loaded gun should be placed where it may be knocked down by a dog or a child, or can reach there by any excuse for a loaded gun standing where it may be handled by a person who does not know that the weapon is loaded."

"Perhaps the most frequent cause of shooting accidents is the dangerous habit of some hunters who shoot at something moving in the bushes without first making certain that the moving object is the game they seek rather than a hunting companion."

As Mr. Howard properly observed, "Few accidents happen to people who are careful of their guns. The precepts of safety are simple. If they are generally observed many lives can be saved each hunting season. The hunter must never forget that the man who didn't know it was loaded" is always with us."

Mr. Howard struck at the root of the matter when he said that few accidents happen to people who are careful with their guns. It is true there may be an occasional accident which could not be foreseen or prevented, as for instance, when the hunter with his eye on his quarry trips over some minor obstacle at his feet, but such accidents are rare and nearly all the tragedies that occur in the hunting field can be attributed to carelessness and sometimes to criminal negligence.

Accidents which fall in this latter category can be avoided every time, but only by rigid observance of the few simple rules laid down by Mr. Howard in his timely interview. Openness should always be on the alert to prevent such accidents and remember that eternal vigilance is the sole price of safety where guns and ammunition are concerned.

A Real Drought

Only three showders that could be measured have occurred in the last 18 years in the Africa district of Chile, which is reputed to be the most arid section in the world as far as rainfall is concerned.

New Post Offices

Two new post offices were established in Naakaachewan recently. One is named Leone Spruce and is situated in the Prince Albert electoral district, and the other is known as Trojan in the Northern district.

A harmless and inexpensive spray, worked out by Government chemists, will dye lawn grass a healthy green to match the weeds.

On a bright day the surface temperature of an asphalt road may be 150 degrees Fahrenheit or more.

The colors in Yellowstone's famous rocky canyons are due to hot waters and gases.

Voting In The Bahamas

Ballot System May Replace Oral Method Now In Use

Voters line up alphabetically at the polls to elect their candidate to office in the Bahamas legislature by the antiquated, viva voce, or "oral" method of voting now, but a plan to change that is afoot.

Voters in the Bahamas mark no ballots. On election day they go to the polls and are asked for whom they wish to vote. Their answers are entered on a printed form by a recorder.

When Harry Oakes, Canadian gold mine operator, defeated Milt Butler, negro grocer, for the Legislature in the Nassau election several months ago, the campaign was so well organized that Oakes' supporters were lined up alphabetically at the polls.

Women cannot vote in the Bahamas. Men over 21 who own real estate or household property to the value of \$25 or more qualify as electors. Members of the legislative council or the representative assembly must own real or personal property to the value of \$1,000.

First Gold Brick

Production Has Started At The Yellowknife

The signalling start of actual gold production in the Northwest Territories, the first gold brick, weighing 72 1/2 pounds, was poured today at the Consolidated Mining and Smelting Company's Yellowknife mine. It was announced by Dr. Charles Cammell, deputy Minister of Mines and Resources for the Dominion.

Dr. Cammell, accompanied by G. Hanson, assistant chief geologist of the Federal Geological Survey department, arrived at Edmonton after a tour of northern mining centres in Canadian Airways' plane piloted by Con. Farrell.

Dr. Cammell officiated at the pouring of the brick.

Canada's War Memorial

Seventy-Foot Arch Is Now Being Erected In Ottawa

Behind a gray board fence across Wellington street from the Parliament Buildings' east block in Ottawa, Canada's towering national war memorial is slowly being erected. Twelve years after the design was originally selected.

Located in downtown Ottawa on the Plaza, the 70-foot memorial will face south to the Rideau Canal and the famous driveway. Back drop for the huge memorial is the parliament buildings, the Ottawa River and the distant Gatineau Hills.

The structure when finished will be granite arch topped by bronze figures of victory and liberty with a military group passing through the arch at the base.

Will Your Lantern Stand This Test?

A hurricane, as officially defined by the United States Weather Bureau, is a wind "exceeding 75 miles an hour."

Tests just completed by Aircraft Engineers on a Coleman Gasoline Lantern placed in a wind tunnel subjected to a gale of 105 miles per hour could hardly have been more dramatic.

The secret of the Coleman Lantern's withstanding such high winds is due to the design of the heat resisting glass globe which deflects moving air away from the lighted mantle, it being impossible for direct blasts of air to strike the point of illumination.

Constitute A Menace

One Driver In Every Ten Affected With Night Blindness

Ten per cent. of automobile drivers are afflicted with "night blindness," a sudden failure of vision with the approach of darkness. Dr. Ulysses Forget, Warren, N.J., said in a paper delivered to the Association of French-speaking Doctors of North America, in convention at Montreal, that many people drive a car at night, without realizing their affliction, they are a menace both to themselves and others," he declared.

COLEMAN LAMP AND STOVE CO. LTD., TORONTO, ONT.

Thrills For Onlookers

Pilot Shows What Skill Can Do In An Emergency

They knew what superlative ability and judgment combined to thrill military and newspaper observers at Camp Borden with an example of what can be done in a moment of emergency.

The pilot of an army co-operation plane of the Royal Canadian Air Force, taking part in the war maneuvers sent chills up the spines of those on the ground as he swept close to the ground at terrific speed and hooked a descent which had been struck on wires between posts in the middle of a cleared field.

Circling far above, the plane suddenly went into a steep dive, a steel hook dangling from below the landing gear. Coming almost to ground level, the plane flattened out, speed between the posts and missed the message by inches. Quickly the pilot put his machine into a steep climb and went back east of the field for another attempt.

With the wind screaming in the struts and the observers on the ground almost recoiled to a smash, the plane dived once more and there were gasps as the machine appeared to be headed directly for the trees. But the pilot knew his job. He skimmed the tree tops and went straight for the centre of the two posts. For a moment it seemed as though the hook had again missed its objective, but as the plane rose once more it was seen to have securely caught the post.

Raymond Massey In New Role

A Canadian Representing Abraham Lincoln, Brings Comments From New York Newspaper

Prospect of a Canadian actor playing the role of Abraham Lincoln in a New York stage was too much for the *Tabloid Daily News*.

The *News*, worked up over the idea of a British subject, playing such a "thoroughly American" part as the great emancipator, showed the subject of international affairs to the tail end of the single editorial column and gave over the leader space to discuss the question: "A Canadian as Abraham Lincoln?"

Prompting the editorial was the much-heralded performance of Raymond Massey of Toronto in *Harvard's* "Abraham Lincoln in Illinois," scheduled to open early in the new theatre season.

Speed himself picked Massey for the part. The *News* thinks Massey as an actor is "fine" and "the script does look like Lincoln."

But it finds the nationality angle a big hurdle. "We think he is going to stumble over something in the subconscious minds of those who watch him, unable to unify the actor with his part, there is bound to be this question: 'Why in the world should a Canadian (you might say an Englishman, in view of his years of experience on the British stage) play the part of so thorough an American as Lincoln?'"

Motor Car Development

In Early Days Few People Foresee The Future Of The Industry

W. C. Robertson, secretary-treasurer of the Canadian Automobile Association, asserted in a speech at the Canadian Good Roads association convention that few in the early days foresaw the future of the "horseless carriage." The British Association for the Advancement of Science concluded at its 1866 session that such vehicles could never be widely used because their operation would require too much skill and their drivers would not have "the advantage of the intelligence of the horse in sharing his part with the driver." W. B. Hutchison, of Ontario highways department, said the experience in Ontario has been that when a horse goes or stops under the influence of a car the maintenance charges per mile per year were excessive and it was practically impossible to keep the surface in a standard serviceable condition. Advantages of transmitting such loads to a more permanent type of dustless surface were fairly obvious.

A Red Cross doctor says that from 70 to 80 per cent. of those treated in the Chinese war zone are women and children, and hospitals are the favorite targets of bombers. That's modern warfare.

The ancestral family of Benjamin Franklin had been blacksmiths for more than 200 years.

"Are you doing anything for the preservation of antiques?" "You bet I am, I sell cosmetics."

Cotton-tail rabbits communicate with each other by rubbing whiskers and stamping their feet.

Boast Out-Of-Date
It used to be—it still is with a few exceptions—that the "best" or "old" car could be sold for more than its purchase price. That was foolish; the sensible idea is to drive away so that the car is under control and not over the surplus speed line in reserve until emergency demands it.

With the exception that the models are arranged differently, diameters are of the same material as that of a lamp chimney, or the lead of a pencil.

Cows Might Object
If you don't like carrots or colic, or hay, perhaps you can interest Bessy in eating them for you. Experts at the U.S. National Agricultural Research Center said that carrots and colic hay, mixed with poor hay in the bawling diet, would increase the vitamin A content of milk. With good hay, the experts added, they were necessary.

People will always get along just as long as they don't get too anxious about making money.

CHAPTER IV.—Continued

Kay Joyce, trim in polo shirt, fawn-colored breeches, riding boots and red nails of an equine lustre, bent out.

"Jack!" she called. "Don't splash around like that. How in the world will you ever carry mother and me ashore? We'll be simply dripping, you old sissy!"

It was Bruce Kenning, however, who finally carried Kay and her mother ashore. Hammond, all of a sudden, had realized that he was a sudden mess. Then, with the landing of the party, everything became confused; gold seekers crowded about, placer miners waded out to catch the rope which Timmy Moon had tossed to them, that they might knot it to a poston and anchor the ship. Now Hammond was back in his own cabin, talking excitedly as he changed his clothes.

"Kay's crazy about the cottage," he volunteered.

McKenzie Joe, squatted on the doorstep, turned his headlike head. "I figured she would be, for awhile."

"What do you mean awhile?"

"They're city people," said McKenzie Joe quietly.

Hammond laughed, lightened his left, stood immobile a moment, then clanked about him in the half-dark room for a necktie.

"Don't you worry about that. Kay can take it. So can her mother. They like the outdoors."

McKenzie made no direct reply. He only eyed his partner.

"Kind of dressing up, aren't you?"

"Well," said Jack with a grin. "You know—your first night here. We're all going to the Stunglum to eat. Come along."

"None," Joe said it half-brusquely. "Little abrupt, aren't you, Joe?" he said at last.

"Not particularly."

A queer feeling of resentment shot through Hammond.

Help improve your personality with Wrigley's Gum. Keep your teeth white, breath sweet, by using Wrigley's Gum daily as millions do. The children also love the delicious refreshing flavor of Wrigley's Doublemint. Take some home today.

Men Love Girls With PEP
If you are happy and full of fun, men will love you. If you are tired, listless and tired, men will not. Wrigley's Gum is the answer. It gives you the pep you need to be happy and full of fun. It gives you the pep you need to be successful in business and in life. It gives you the pep you need to be a winner. Wrigley's Gum is the answer. It gives you the pep you need to be happy and full of fun. It gives you the pep you need to be successful in business and in life. It gives you the pep you need to be a winner.

MANY PEOPLE can safely drink tea and coffee. Many others—and all children—should never drink them. If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for one month.

Then, if you do not feel better, return the Postum container top to General Foods, Limited, Cobourg, Ontario, and we'll refund full purchase price, plus postage. Postum is delicious, economical, easy to prepare, and contains no caffeine.

Hammond watched him stalk away; it was not his imagination, he told himself, which made him feel that Joe was different. Silent, almost morose at times; working quietly and without response; when Hammond planned enthusiastically for the future, when Kay would be there and Sapphire Lake a city.

"Joe must be getting old," he said at last, and dropping down the step, hurried through the cross-cross of cabins and tents toward the trail which led to the cottage.

Kay turned from a window and strode toward him with a swinging step which matched her outdoor clothing.

"You old dear!" she exclaimed. "I thought I'd better hurry back," Hammond explained buoyantly. "Just to be sure you were really here."

"If your ears rung like mine, you'd know we were here," broke in Mrs. Joyce. "Sitting cooped up in that airplane for I don't know how many hours." She sat cross-legged on one of two bunk-beds, looking at a cigarette into a long, green holder. Kay cut in.

"Can't you imagine," she asked, as she came close to Jack, and with a maternal manner, straightened his tie. Only her close-cropped jersey imprisoned her full breasts; they touched Hammond's arm, yielding slightly to pressure. "We hardly dared all the way here from Vancouver."

Hammond barely heard; his blood was singing in his veins. "Good thing we didn't have to turn back when we got here," growled Timmy, from his sprawled position on a rough chair. "We'd have been in a hell of a fix if this lake had been frozen over."

But it wasn't frozen. Thickly, Kay jibed. She turned from Hammond and leaned over the back of Timmy's chair. She revealed the pilot's nose. "Always the cheerful little careful. He's had us smashed up a dozen times since we started."

"Well, who wouldn't be careful?" Finding a place that hardly exists in a crate like that old bit of mine. A fellow's got to think of his responsibilities."

"How many steps do you make getting here?" Jack asked.

"Only a couple," Jack volunteered. "Once at Stewart lake for gas and for Timmy to study his maps. Then again at Fourcous."

Jack whistled. "You moved right along."

Mrs. Joyce regarded her cigarette holder.

"That's what happens when a girl really wants to see a man," she observed calmly. Hammond laughed and could think of nothing to say. Kay crossed the room and dropped into a chair.

"Now that it's over, I'm tired," she said. "Couldn't we have dinner served up here?"

Hammond shook his head. "Nothing like that. It's a matter of getting it when the cook's willing. It'll have things organized for you in a day or two—I've got a line on a woman who can come here and do the work for you."

"Wonderful," said Mrs. Joyce, with her usual lack of expression.

"And in the meanwhile," announced Timmy, "we'll eat at the Queen and Dirty and like it."

"When?" asked Mrs. Joyce.

"I suppose so. On the other hand, Kenning's a geologist. It might pay us to give him a little information—even on him in."

Kay and Joe rose and tossed the stick away.

"Not while I'm a partner in this stock," he said. "Then, hesitantly, 'I guess I'll go.'"

"You want change your mind, and come with us?"

"Oh, not tonight. You've all got things to talk about."

"We're waiting for Bruce Kenning, Mother."

"As usual," they waited for him for ten years.

"Yes—farther always said he was the latest thing in mining men."

Hammond laughed longer than anyone at that. Jokes had been few for him in these long weeks of waiting.

Bruce Kenning was coming in the door. After that, the conversation became jumbled; so much to be gone over again, calls for food from Timmy, Moore, monosyllabic cut-in by Mrs. Joyce, questions to be remembered about the trip. But at last they were down the hill and at the cradle doorway of the Stunglum.

For a moment a queer feeling of trepidation shot through Jack Hammond. For the first time, he wondered what Kay would think of these crude surroundings which she had found in every side, the lack of comforts of civilization. But the answer came almost as soon as his answer to the question. Kay had tipped her blonde head and glanced about at the sloping log building, with its glassless windows, mosquito netting, its faint illumination of two ancient oil lamps, its vague forms of furniture.

At the sloping log building, with its glassless windows, mosquito netting, its faint illumination of two ancient oil lamps, its vague forms of furniture. Seek Air Record

Britain Prepares To Attack, with Distance Record Held By Russia

The seaplane Mercury, which it is reported, is being groomed for a hop to Cape Town, now is rumored as preparing to attack the world distance record held by Soviet Russia.

It is suggested the famous upper half of the pick-a-back plane, which this summer flew to Montreal and New York, may be sent to Scotland for a "take-off" that would increase the airline distance record beyond the 6,306 miles Russian flyers covered when they established the record in a fight to the United States Pacific coast.

International regulations specify a record, record, recorders must be to the existing figure to claim the title. Southampton to Cape Town is only 3,500 air miles and the Mercury is expected to start from north of the Fifth of North.

While secrecy was maintained over the Mercury plane, it was announced that examination of the Albatross No. 1 which cracked up August 27 disclosed a fault which would prevent her to break her back while landing. The fault has been corrected in Albatross No. 2, which has been tested recently on the set.

The second Albatross is expected to start soon a series of long distance tests, preparatory to trans-Atlantic hop with which Imperial Airways will resume its interrupted North Atlantic research program.

Imperial Airways proudly pointed to the "Hercules" veteran air liner which established a world mileage record on its "birthday," having flown a total of 1,250,000 miles, equal to 30 times around the Equator, and carried 65,000 passengers without making an emergency landing or injuring any passenger.

Life On The Farm

Farmers Have Lower Death Rate Than Business Or Professional Men

Men

If you would live to a ripe old age, go to or remain on the farm.

This is one of the interesting findings made by the public health service in a study covering ten of the American States. Agricultural workers in the states studied were shown to have a much lower death rate than successful business and professional men.

The mortality rate of agricultural workers per 1,000 population, between the ages of 15 and 64, was 6.2 per cent. That of professional men was seven per cent. The highest rate, 13.1 per cent, was for unskilled workers, while the rate for all classes was 8.7 per cent. Contributing factors to the high death rate in the unskilled class include lack of insurance, amount of medical care, contact with infected persons and low income. Tuberculosis and pneumonia were the two most outstanding causes, with accidents ranking third.

Weight Be A Bargain

The Italian newspaper Messaggero reported that the golden crown of Haile Selassie, once Emperor of Ethiopia, has been placed on sale in a London jeweler for a price of £500. The crown, studded with 718 diamonds, is a "great bargain at such small prices," the newspaper's London correspondent reported, "provided that the diamonds are not made of glass."

Her broad chest, cynegs dying from a rare disease, a swan refused to leave her nest at Kion College, England, or to allow anyone to approach. After two weeks college employees put a fence around the nest and the feathered mother could have complete solitude.

The women of Walcheren, Holland, wear gold ornaments on their heads to indicate the village from which they come on market days.

Sunflowers are descendants of the rose.

More and more women are taking up law, we are told. But those laying it down are still in the majority.

Railways in India

Dead In Remarkable Way With Rush Of Pilgrim Traffic

Richard Harrison, some years ago was free to write in his experience he gave the impression that the railway system was rather loosely run.

Automobiles are not so plentiful in that country and the trains get the bulk of the travelling business when crowds want to converge upon any one point.

The Kumbha mela attracts devout Hindu pilgrims from all over the country as it is considered a most auspicious moment for a bath in the holy Ganges. It falls once in 12 years.

Some remarkable facts and figures have been issued illustrating the achievement of the East Indian Railway in dealing with the phenomenal rush of pilgrim traffic to the Kumbha mela at Harwar, recently concluded.

The highest figures on any one day for inward and outward traffic were:

Inward—44 Special trains, 7 Regular trains—Total number of passengers 68,000.

Outward—41 Special trains, 7 Regular trains—80,000 passengers approximately.

On an average each special train provided accommodation for 1,500 passengers.

During the mela period from March 12 to April 13 a total of 347 special trains were run. The total number of passengers was 1,547,755 passengers detained at that station.

Happy Ending

Father And Child Re-United After Thirty-Seven Years Separation

A sheet of sacred music bearing the composer's name is bringing a father and daughter together in a trans-Atlantic reunion 37 years after they were parted.

Marion Beaton Pull, district nurse near Maldstone, England, told reporters her father, the Duke of Devonshire, was born and that her mother died apparently without informing him of his birth.

She was adopted and raised by a foster mother who died when she was 21. Three years ago Miss Pull was playing an organ adaptation of "Auld With Me," when she noticed the composer's name was Edwin Pull.

The music was published in Toronto to Miss Pull wrote Police Chief Draper who got in touch with Pull.

"Father and I have written each other hundreds of pages of letters," she said, "now he is planning to visit England and may arrive next month. He has been a church organist in Toronto."

Pull has remained in Canada and has two sons.

Annoying For Others

Psycho-Analyst Adopts Quirky Way To Cure Patients

Young men entered one of London's exclusive restaurants, sat at tables with "reserved" signs, and directly refused the headwaiter's request to move to another table.

They read the menu out loud, shouted that they could not see anything worth eating, then walked alone.

"A psycho-analyst made us do it," they told the restaurant owner.

"He sends all his patients to fashionable restaurants and tells them to make a scene—to build up self-confidence."

Two members of the English House of Commons do not take the salary of £2,000 a year which is due them.

The walrus attains a weight of one and one-half tons.

Yes, Sir—BEE HIVE Syrup is my morning cereal sweetener.
